

SAKSHI SINHA

Full Stack MERN Developer

+918429288887 sakshi0009sinha@gmail.com LinkedIn GitHub Lucknow, India

PROFESSIONAL SUMMARY

Full Stack MERN Developer pursuing an MCA, with a strong foundation in **Java, JavaScript, Python** Object-Oriented Programming, and Data Structures & Algorithms. Experienced in developing **responsive full-stack applications** featuring secure authentication, AI integrations, and RESTful APIs.

WORK EXPERIENCES

Full Stack Developer | Freelance

Mar 2026 - May 2026

Industrial Computer Works

Remote • Lucknow

- **Developed** and **deployed** a **responsive business website** utilizing **React.js, Node.js, and Express.js**.
 - **Designed** secure backend APIs and **integrated** a **Nodemailer-based contact system** to enhance communication.
 - **Collaborated** closely with the client to **prepare** the application for **production deployment**, ensuring all requirements were met.
- Technologies / Skills Used :** React.js, Node.js, Express.js, Nodemailer, Tailwind CSS

PROJECTS

AI Powered - Job Tracker Application | GitHub

Individual Project

- Developed a **full-stack MERN application** featuring a responsive **frontend**, secure JWT authentication, and protected REST APIs.
- Built an interactive **frontend analytics dashboard** displaying Applied, Pending, Accepted, Rejected, and Interested jobs, with pagination and filtering for efficient job tracking.
- Integrated Gemini AI to generate technical, behavioral, and project-based interview questions based on job descriptions.
- Implemented AI-powered resume analysis, providing a resume score, matching skills, missing skills, strengths, and personalized improvement suggestions.
- Enabled secure resume uploads in PDF, DOC, and DOCX formats using Multer, with authenticated file management and enhanced user experience using SweetAlert2 and React Toastify.
- Conducted independent research on emerging technologies and existing codebases to solve implementation challenges and deliver new features.

Technologies / Tools Used : React.js, Node.js, Express.js, MongoDB, Gemini AI, JWT Authentication

Now or Never – Productivity Management Application | GitHub

- Developed a responsive **frontend** productivity management application that enables users to efficiently organize daily tasks, track productivity scores, maintain activity streaks, and generate personalized daily timelines.
- Implemented secure user authentication with **Firebase Authentication**, managing user profiles, tasks, and productivity data in **Cloud Firestore**.
- Integrated Google Sheets synchronization for automatic task data export and backup, enhancing accessibility and reporting capabilities.
- Designed a responsive, cross-platform **frontend** optimized for desktop, tablet, and mobile devices using **React.js** and **TypeScript**.
- Leveraged **Google AI Studio** by crafting clear, structured prompts for feature planning, rapid prototyping, UI refinement, debugging, and iterative development, significantly improving development efficiency and solution quality.

Technologies / Tools Used : React.js, TypeScript, Firebase, Cloud Firestore, Google AI Studio, Tailwind CSS, Git, Github

SKILLS

Databases :	MySQL, Firebase, MongoDB
Programming Languages :	JavaScript, Python, Java
Frameworks & Libraries :	React.js, HTML5, Tailwind CSS, Node.js, Express.js
Tools & Platforms :	Firebase Firestore, JWT, Firebase Authentication, Git, GitHub, Postman, Cloudinary, Nodemailer, Gemini AI, Render, Vercel, Claude, Google AI Studio, Codex, VSCode, IntelliJ, Numpy, Pandas
Languages :	English, Hindi

EDUCATIONS

Chandigarh University	2024 - 2026
<i>Masters of Computer Application(MCA)</i>	
Ambalika Institute of Management & Technology	2021 - 2024
<i>Bachelors in Computer Application(BCA)</i>	
Branch: Computer Science	
CBSE Board	2020 - 2021
<i>Intermediate - (Physics, Chemistry, Mathematics)</i>	Percentage : 82.8%
CBSE Board	2018 - 2019
<i>Matriculate</i>	Percentage : 83.8%

CERTIFICATIONS

Full Stack Web Development (MERN Stack) – Apna College

- Completed hands-on training in MongoDB, Express.js, React.js, and Node.js
- Built full stack applications with authentication, REST APIs, and database integration
- Gained practical experience in real-world development and deployment
